D. B. HOLLAND.

TO CITY SUBSCRIBERS.—Notice is hereby given that Mr. E Conklin has taken entire charge of the city list of the DAILY NEWS, and will attend to the delivery of the morning paper and the collection of city subscription. The rates are put on the same basis as to subscribers abroad, payment in advance. Those who have neglected this requirement will please pay up, otherwise they will be struck from the list.

LOCAL BRIEFS—

Mr. J. D. Whitaker has for sale two thousand cords of best pine wood cheap.

The Rads of Mecklenburg nominated for the Convention on Tuesday Messrs. Wm. M. Kerr and Wm. R. Myers.

Pepper gives notice to his customers that he will serve up to-day at 11 o'clock a supply of his superb turtle soup. Families supplied as usual.

We counted fifty carts in market yesterday morning, containing 1542 melons. Prices range now from 10 to 50 cents. Within our reach at last.

J. C. Brewster's Raleigh Stove House is one of the most popular institutions in the city. Read his double column advertisement in another column and call and satisfy yourselves.

Several of our citizens, who disappeared in a flood of perspiration during the late *hot* term, have put in an appearance again since the weather became a little cooler, but in a terribly demoralized condition.

It is rumored that Judge Rodman, of the Supreme Court Bench, will leave to-day for his home in Beaufort. Has this any connection with his candidacy for the Convention from that county?

Caldwell, of the Charlotte *Observer*, blames us for copying without credit an article from his columns about "playing marbles with a cross-eyed man." The fact is the article was "a good one," *outside of Caldwell's usual line*, and hence the blunder. Do you take, neighbor?

"Harwood," a novel by the author of the "Odd Trump," published by E. J. Hale & Co., is on our table. We have not yet had time to read it, but the pleasant reception which the Odd Trump has received, and which it deserved from its orginality, rainess and purity, gives the author a claim upon the reader for equal consideration for Harwood. We will give farther notice when we can examine more carefully. For sale by Alfred Williams, Fayetteville St.

☞ Persons leaving the city for the Summer can have the DAILY NEWS sent to them for 75 cents per month, postage prepaid. The address may be changed as often as desirable.

KEEP COOL.—Go to Capt. Bosher's Prairie's Saloon, 31 Fayetteville St., where you will get ice cold Jacob Seegar's Lager Beer at five cents a glass.

SUPREME COURT.—This court was in session yesterday, all the Justices being present. The following cases were argued:

Henry Williams vs. C. B. Hassell, adm'r., *et al*, From Martin. Mullen & Moore for plaintiff and Gilliam & Pender and J. E. Moore for defendants.

Lockwood Hyatt vs. R. L. & T. H. B. Myers. From Beaufort. Mullen & Moore for plaintiff and D. M. Carter for defendant.

D. R. Jackson vs. G. T. Evans, Administrator. From Pitt. J. E. Moore and Gilliam & Pender for defendants.

W. W. Purvis and wife vs. W. H. Carstarphen *et al.*, from Martin. H. A. Gilliam and J. E. Moore for plaintiff and Smith & Strong for defendants. Argument commenced.

"Black spirits and white,
Blue spirits and gray"

Mingle in rare profusion at the headquarters of the State Radical Executive Committee at the National Hotel. The rooms of this body of Radical workers are at present the scene of active working, and if those walls could speak many a dark tale and damnable plot would be unfolded. The Democrats of North Carolina, those who value the real peace of the State, should remember that they have to fight an enemy whose sleepless watches for the next two weeks will leave no stone unturned to thwart the efforts of those who desire a return to the honest government under which the State prospered and our people were happy.

A VALUABLE GUIDE BOOK FOR SUMMER TOURISTS.—We are indebted to Capt. S. E. Allen, General Transportation and Passenger Agent of the Piedmont Air Line R. R., for a copy of the Pennsylvania Railroad "Illustrated Summer Route Book" for the present season, which will prove of great service to any one desiring to tour the North. Says Capt. Allen:

"Although our own issue of excursion tickets is large and complete, in order to accommodate the more fastidious, I have placed on sale at Raleigh and other important points tickets to Washington and return, which we sell in connection with an order for a ticket from Washington to any of the many points via any of the various routes shown in the book of excursion routes. Thus making the arrangements by far more complete than ever before offered, as a person in Raleigh is offered the same multiplicity of routes and forms to select from as a person in Washington. For instance you do Niagara by 130 different routes."

WAKE CANVASS.—Since our candidates have entered upon the campaign, the apprehensions that existed as to the result have almost disappeared. The best of feeling prevails in the county, the most decided hopefulness, and we are glad to add, much of interest, as is shown by the large crowds attending the different gatherings. The Democrats are more than satisfied with their nominations. Battle, Gales, Holland and Jones, bear themselves like men from whom much is expected, and they acquit themselves nobly of their trust.

On the other hand the Republicans have no reason to glory in the overzeal of Dick Badger, who is the fugleman of his crowd. He over-shoots his mark in the effort to bring himself down to a level with his hearers. It is right hard for Dick to flatten himself into a "Muffin," but he is trying to do it. The "poor white men," as Dick sympathetically calls them, who have the manliness to do their own work, laugh at Dick, for they know how insincere this condescension is. They know very well when the election is over he will rotate back to his haunts among the "aristocracy," as he calls the Democrats and without farther sym pathy with the "Muffin." And the bait that catches the colored man will not hold the white man. Dick seems to have yet to learn that the white man of the South does act upon the idea of differences between the races. Politics, like poverty, makes strange bedfellows, but it will be a task of no little trouble for Dick to tumble neck and crop into the same bunk all the different elements even of his own party. "Civil Rights" makes no tempting display to the white man.

The speaking has been mostly in the Southern and Western parts of the county, and the tax gatherings have been well attended.

A note from Apex says that there were six to eight hundred there present, and that Gales and Battle made eloquent and pointed speeches. The writer adds that Jones and Holland are sound and sensible speakers, and the white men of that section would wish no better ticket than that presented by the Democrats. The candidates were heard with marked attention.

The writer closes with an appeal to the white men of Wake to rally up, and promising that White Oak shall roll up a larger majority than ever.

THE DIXIE PUMP.—Mr. G. L. Greeson, the proprietor of this popular pump, manufactured and almost exclusively used in Charlotte is in this city for the purpose of establishing an agency here. He wants a good agent. See his advertisement in another column.

LAST CHANCE.—John Armstrong, Esq., advertises half-dozen copies Fraud Commission Reports for sale at $3 per volume. These are probably the only copies for sale in the State. It has become a rare book. Buy and file away.

MASS MEETING AND BARBECUE.—A grand Mass Meeting of the friends of Convention will take place at the falls of Tar River, in Nash county, on Saturday the 31st inst. A Barbecue will be given.

Senator Ransom, Maj. Yeates, Judge Fowle, Gen. Cox, Capt. Davis, and many other distinguished speakers have been invited.

PECULIARLY GRATIFYING.—The continued and rapid addition to our subscription lists is a matter peculiarly gratifying to us, as it encourages us to continue in our efforts to publish a paper suited to the wants of North Carolina. We are under obligations to our many friends in different sections for the clubs that are being sent us, and hope they will continue in the good work in which they are engaged.

AN UNFOUNDED STATEMENT.—The *Daily Constitution*, of this city, in its Tuesday evening's issue, made a statement to the effect that the present employees of the NEWS office had "struck," and yesterday evening calls upon us to deny the assertion before it will "make the correction." We don't know that any denial at our hands is necessary when the idea originated only in the malignant feeling of the author towards the NEWS for its intention to conduct its business without the aid or advice of those who would control it for us.

JUDGE WATTS AND THE NEGRO'S NOSE.—Judge Watts, the buffoon of the Circuit Court Bench of North Carolina, is now engaged in canvassing against Convention in some of the counties immediately East of the Blue Ridge, and, from a knowledge of his style of speaking, we know that he must be affording infinite amusement to our friends in that section.

While the Judge was *en route* to the West a few morning's since, he took breakfast at the Boyden House, Salisbury, and engaging in conversation with a number of gentlemen asked one of them, a Democrat, "if he knew the difference between a Democrat and a Radical?"

"The difference is so great," replied the Democrat, "I will not attempt to explain it."

"It is altogether in the nose," said the Judge.

"Yes," said the Democrat, "I am aware of the fact that the Radicals of North Carolina, as a body, possess extremely *flat* noses."

The Judge would not see the point nor did he appreciate the laugh of the crowd at the table, but proceeded to explain that the difference was in the smell. That the white Radical's nose was so constituted he could swallow the negro at one gulp while the Democratic nose, being more delicate, required years to take in this nauseous dose.

THE WHITE SULPHUR SPRINGS.—It was the privilege of the writer (the Associate Editor) to spend several days during the last week at this pleasant summer resort, located in Catawba county only a pleasant hour's ride removed from Hickory, on Western North Carolina Railroad, and we were pleased to find that they are well patronized this season. Our sister town of Charlotte has contributed quite largely to the crowd now present, although quite a number of visitors are to be found from other portions of North Carolina, and several from South Carolina. Although the majority of those present are families, yet we have never had the privilege of meeting with a more pleasant and genial "community," and the quiet pleasures of the Springs—there is but little gayety there as yet—add a zest that is greatly appreciated by those who seek its waters, its shades and its healthgiving climate, in order to get away from the busy turmoil of every-day life. The benefits to be derived from its sulphur and chalybeate waters are already known to those whose privilege it has been to test them, and we only wish to speak particularly of the table of mine host Dr. Elliott, for with perfect safety, we can say we have never seen Miss Wrenn surpassed in the *cuisine* department which she controls, while the Dr.'s larder to all appearances is inexhaustible.

To those who would find a pleasant resort, embodying both health and comfort, the Catawba White Sulphur Springs will be found equal to any other similar resort in North Carolina.

It affords us pleasure to know that the various attractions to Summer tourists to be found in North Carolina are attracting the attention of not only our own people but those of other States, and we trust that in a few years our Summer resorts will be second to those of no other State in the land.

Lady Franklin.

From the Baltimore Gazette.]

In the legend of good wives that threads its way through all the centuries, there are names that will live, as examples of heroism and devotion as long as the world endures. They are found in humble stations, are among the delicately natured, in the hut of the French potter, and in the stately homes of the nobility. Who can read without admiration the quaint narrative of the domestic troubles, during the Cromwellian revolution, of Mrs. Lucy Hutchinson? In her memoir what a halo of light encircles her husband's head, when she draws his portrait for her children. How we pardon, while we smile at, the eulogium which begins, "To number his virtues is to give an epitome of his life, which was nothing else but a progress from one degree of virtue to another. His example was more instructive than the best rules of moralists. He had a native majesty which struck awe into the hearts of men, and a sweet greatness that commanded love." Thus, and much more of the like, flows from the loving wifely heart of her who had ministered to this noble and manly gentleman in sickness and in prison, and who lived her widowhood to bring up his children to honor his memory. And in the next century, the eighteenth, stands prominently forth the gentle figure of the Countess of Withsdale so long celebrated for the romantic escape of her husband, the Earl, from the Tower of London, through her quick wit and ingenuity. A century later the Countess Lavailette, in France, adopted successfully the same scheme. She enabled her husband, the Count Lavailette, to evade his jailers by dressing him in her own apparel, remaining herself in his cell to quiet suspicion. For this great act of devotion she underwent such cruelties that she is said to have passed five and twenty days and nights almost wholly without sleep, and the feverish anxiety acting upon health always feeble produced periods of insanity to which for many years in after life she was subject.

The good wives known to history have had their meed of praise, and in the future one life which has just closed will ever be mentioned with words of tenderer sympathy and a warmer glow of feeling than any other probably in the century. For thirty long years Lady Franklin has devoted her time, her energy, her wealth, to recover some memorial of her husband, Sir John Franklin, from the icy mystery of the Arctic Circle. Doubtless humbler lives can show as strong a devotion; doubtless every day women are suffering and dying silently who carry quite as nobly as great a sorrow—a self-abnegation as heroic. But Lady Franklin was, from her position, in the gaze of the public. All her acts were necessarily known and heralded to all the world, and the world is quick to see and honor a type of womanhood of qualities so marked, so conspicuous and so noble! Peace and perpetual honor to her memory. She has found her hero at last.

The Columbus (Ga.) *Enquirer* says a negro girl was dying a few days ago. She called her mother to her and asked her to see a certain negress. She said that one had buried a certain bottle and it was killing her. If she could induce her to dig it up she would live. Well, the negress was brought, and knew nothing about burying a bottle. The girl died. It was suggested that the suspected conjuror may have buried the contents of more than one bottle down her throat. Anyhow the mother and the woman had an awful fight. Tuesday morning and yesterday's examination revealed the belief in the bottle story.

A large and elegant tea-shop was opened in St. Louis about a month ago. The establishment was so handsome and the prices so low that the sales were enormous from the start. Yet one morning the place was closed; and later on the same day the tea merchant's creditors took possession. An examination showed that the chests remaining contained only sawdust. The merchant had obtained ten thousand dollars' worth of tea on credit for a month, had sold the whole of it at less than its actual value, and had gone away with the money.

Statistics have been adduced to show that there are 100,000 confirmed opium eaters in the United States. A New York journal commenting on this fact, says it is the result of two things: "Careless prescriptions by physicians, who allow patients to acquire the habit; and the deliberate preference of many for opium-eating to dram-drinking." And while it admits there is probably no remedy for the diseased appetite, it pertinently suggests that greater care in prescription and sale might prevent the acquisition of the deadly habit in many cases.

[From the Hillsboro Recorder.

Person County.

Several times within the last twenty years Person County has been represented in the Legislature by one who so well discharged the duties of a legislator and sustained the character of a man and a gentleman, that Person county honored itself in its choice, and the State was proud of Person that it had that judgment of merit that pointed to the selection of such a man as John W. Cunningham.

Again the people of Person have called upon John W. Cunningham to uphold their rights and lead their counsels at a time when judgment, talent and high character were most needed. Is it to be thought possible that the people of Person will fail in their duty? What has John W. Cunningham ever done to forfeit their esteem? As a legislator he has been faithful and wise. As a citizen, he has been liberal and public spirited. As a neighbor he has been kind and generous. Shall he be abandoned now, and for whom? What peculiar claim has Charles Winstead upon the people of Person that John W. Cunningham cannot match? What services has he rendered that Cunningham has not surpassed? And shall a government officer, backed by the patronage of the administration and using all the corrupting influences placed at his disposal, come into Person to seduce from their allegiance a people who have never before failed to recognize the superior merits of their favorite servant?

First Bale of the New Crop.

[From the New Orleans Times, July 15th.

On Tuesday evening July 13th, the first bale of new cotton crop reached this city on the steamer Trenton. It is from the plantation of Messrs. Beraud & Gilbert, in the parish of St. Landry. As all eyes were turned towards the Rio Grande, expecting the first bale of the season to come from that quarter, the arrival of this fleecy messenger from St. Landry proved quite a sensation on the Change to-day.

The cotton is of good staple and color, well ginned, weighs 428 pounds and classes middling fair. It was not wholly, although chiefly, the product of Mr. Joseph Beraud's plantation. Other places contiguous contributed liberally from crops raised from seeds furnished by Mr. Beraud, and known as the "Herlong." A sample of this first product of 1875 was exhibited on the Change, and of course attracted much attention. It was purchased by Messrs. Walker and Melleur, brokers, at 25 cents per pound, for Col. W. M. Owen, who immediately sent it by express to Messrs. Bliss, Bennett & Co., New York.

It has been known to us for a day or two that five bales of new cotton were soon to arrive at this port from the Rio Grande district. It has always been that the first receipts came from there, and we expected that it would be the case this year. But the charm has been broken, and now, as related above, Louisiana has borne off the prize. These five bales of the Rio Grande crop are expected to reach Brashear this morning on the steamship Harriss, and will come thence to the city by rail.

445 MILES OF PENCILS.—The Dixon Crucible Company, of Jersey City, received orders during the first week of this month for 28,000 gross, or 4,032,000, of Dixon's American Graphite Pencils. It is hardly probable that so great a number of pencils was ever before ordered from any single manufactuer in the world in any one week.

Each pencil is seven inches in length, making 2,352,000 feet or 445 miles, of pencils placed end to end!

To make these will require 83 000 feet of cedar lumber—an entire cargo from Tampa Bay, Florida, where a saw mill is run by the company to saw cedar boards for the Dixon pencils. They are packed in cases containing 50 gross each for shipment, requiring 560 cases, and six freight cars to start these pencils from the works of the Dixon Company.

Every man has his style as he has his own nose, and it is not polite to rally an honest man about his nose, however singular it may be. "How can I help it that my style is not different? That there is no affection in it I am certain."

A DOUBLE DANGER AVERTED.—The inhabitant of a malarious region is threatened by a double danger. He is not only compelled to breathe miasma, but to swallow it, since it infects not only the atmosphere, but the water. The aerial poison threatens his system through the lungs and pores, the liquid through the Stomach. Against this double peril there is but one protection, and that is to invigorate the entire body through the digestive and secretive organs. Ordinary tonics usually fail to accomplish this—Hostetter's Stomach Bitters never. In the tropics, where the diseases originated by malaria are of a far more malignant type than those originated by the same cause in the temperate zone, it enjoys immense and constantly increasing sales, and there is no portion of this continent where it is not the reigning specific for miasmatic fevers and disorders of the stomach, liver and bowels, proceeding from malaria and other causes.

TO BUSINESS MEN.
A good advertisement in a widely circulated newspaper is the best of all possible
A
salesmen. It is a salesman who never sleeps and is never weary; who goes after business early and late; who accosts the merchant in his store, the scholar in his study, the lawyer in his office, the lady in her home, the traveler in the car or boat;
D
a salesman who no purchaser can avoid, who can be in a thousand places at once and speak to thousands of people daily,
E
saying to each one the best thing in the best manner. A good advertisement insures a business connection on the
R
most permanent and independent basis, and is in a certain sense, a guarantee to the customer of fair and moderate prices. Experience has shown that the dealer, whose wares have obtained a
I
public celebrity, is not only enabled to sell, but is forced to sell at reasonable
S
rates, and to furnish a good article. A dealer can make no better investment
I
than in the advertising columns of a widely circulated newspaper. Such is
N
the opinion of a man who is known to be the largest advertiser in the United States.

Notice to Correspondents.

No letter can be published in these columns which is not authenticated by the name of its author. This we require, not for publication, but as a guarantee of the good faith of correspondents. Persons who violate this rule will have their communications consigned to the waste-basket.

THE WEEKLY NEWS is the cheapest paper published in North Carolina. It is only *one dollar* per year, postage paid, contains 32 columns of plain printed news from every section of the country, and important advertisements. *Always Cash.*

THE question is not whether we shall have a Convention or not; it is, who shall represent us? Remember this.

REMEMBER that the election law reqnires "That when a voter is challenged at the polls upon demand of any citizen of the State it shall be the duty of the Inspectors of the Election to require said voter before being allowed to vote to prove by the oath of some other person known to the judges the fact of his residence for thirty days previous thereto in the county in which he proposes to vote."

Remember also that the election law says: "No elector shall be entitled to register or vote in any other precinct or township than the one in which he is an actual or bona fide resident on the day of election, and no certificates of registration shall be given."

KEEP working. Only two weeks more to the election, and much work to be done. Let every Democrat take hold. The day is ours, if we work with a will.

THE National *Republican* calls upon the Baltimore *Sun* to correct its statement of the Convention of 1868. The *Sun* may do so safely as the *Republican* is right as regards numbers. But of the 87 white natives, there are not half a dozen names that have survived, except in the reports of the fraud commission or in the criminal annals of the State. They were mere make-weights in the Convention, and some of them deserved to have been made make-weights on another platform.

PROSPECTS.

Within the past few days we are glad to learn that our Democratic friends are more actively at work, and the dangers that threatened from the apparent apathy of the past are disappearing.

But there is nothing yet to justify a confidence which should beget indifference. There is much to be done, and done with untiring vigilance and zeal. The opposition is desperately at work, for they are working for a prize worth striving for—the political control of the State for "an unlimited period of time."

Will the Democrats let them have their will?

UNGRATEFUL FELLOWS.

The radical leaders in Wake exhibt much virtuous indignation at the position of Tim Lee. Strange, that having used him freely for seven or eight years, and kept possession of Wake county mainly by his work and his money, he should be thrown overboard unceremoniously when he presumes to act for himself. Tim Lee is the same man he always has been no less a Republican, no more a Democrat, than since he pitched his tent in North Carolina. "Republicans are well acquainted with him and his course only excites contempt and indignation, not unmingled with pity." So says one of his assailants from his own party. Yes, they know him well, and they know, but for him the party in Wake would have been shorn of its strength long ago. If he is a rascal, they knew it and profited by his rascality.

But there are hundreds of Republicans in Wake who take a kindlier view of Tim's character, and have a warmer recollection of his services, and will not desert him because they are bidden to do so.

THE Radical secret circular decided to keep the Civil Rights question in abeyance, *but never to admit that it was wrong in principle.*

Is there no meaning in this? Now, it is apparent, with the negro at least, that the Civil Rights bill is a thing of practical value. He lives in the hope of seeing it operative to the full extent of its first promises. And therefore the Radical party is wise in its own generation not to oppose it. In the negro counties the Civil Rights bill is as much a live issue as it ever was. Negro equality and negro aspiration is as much claimed as before.

We showed yesterday by the illustration drawn from the Goldsboro outrage, that the negroes assert the rights they claim under the Civil Rights bill. It is so through all the Eastern counties where the negro is in the majority.

The following extract from a letter to a distinguished gentleman in this city from Mr. W. D. Pruden, Democratic candidate for the Convention from Chowan, shows the feeling among the negroes of the East—a feeling to which the radical whites of that region truckle with craven submission:

"John Page, negro, the Radical candidate for Convention in Chowan, said the other day in the presence of highly respectable gentlemen of that county that "if the Republicans got control of that Convention, we intend to give the white folks hell, d—n them. We will have no such thing as a color distinction in anything."

In Wake the same subserviency to the negro is shown. In the canvass now going on, the courtship of the colored man is offensive to manhood. When a white candidate goes to the extent of calling himself a colored man to please his hearers, how far will the party not go?

PRACTICAL WORKINGS OF THE CIVIL RIGHTS BILL.

The following extract of a letter which appears in the Goldsboro *Messenger* of the 19th inst. will explain our reference to the matter in yesterday morning's issue:

GOLDSBORO, July 18th, 1875.

Mr. Editor:

* * * * * * *

Now, sir, Wednesday night as the white people of Goldsboro—our wives, daughters, sisters and mothers—moved by that Holy virtue, charity for the orphan, were assembling at the appointed place to lend ther support to this deserving cause, they were ruthlessly intruded upon and insulted by a few low, dirty, insolent negro wenches and bucks, thrusting themselves in their midst and occupying some of the best seats in the Hall, and so scattering themselves over the building as to take up more than one-fourth of the entire seating capacity of the Hall; and when the balance of the seats were filled, Mr. Mills kindly asked the colored people to take other seats so as to allow the white people to be accommodated, but his appeal to them was abortive, as was also his request if they would not take other seats for them to sit close together and not occupy so much space. These low scullions turned a deaf ear to his every appeal as well as to the appeal of some of the audience, replying "that they would not move or go out unless they were put out by force, and that they would see it was the *dearest put out* we ever had."

Now, Mr. Editor, this is the outgrowth of "Civil Rights" and *practically interpreted* means, that "*white people have no right that negroes are bound to respect.*" And, Mr. Editor, let me ask who is responsible for this state of affairs? Who is responsible for this privilege of permitting our families being thus insulted? Who is responsible for the perpetration of this outrage upon our *social* (not Civil) rights? There is but one answer,

THE LEADERS OF THE RADICAL PARTY.

It is that party who have fastened upon us the infamous Civil Rights Bill! The *negro supremacy* bill!

WHAT THEY HAVE DONE.

Our friends of the Wilson *Advance* thus puts the case:

"The negroes and white Radicals have elected a negro Lieutenant Governor in Louisiana, a negro Judge in South Carolina, a negro Congressman from this District. They framed the present Constitution under a military Governor's orders. They have swindled North Carolina out of millions of dollars and the debt is now hanging over you. They overran the white people of Louisiana and broke up their Legislature at the point of the bayonet. They have swindled the honest tax-payers of Halifax, Granville, Franklin and New Hanover and other counties where they have a majority, out of enough money in one year to pay the expenses of a Convention. Wherever they have had power in this country, they have oppressed and swindled the people. Now they are trying to get North Carolina under their heels again by endeavoring to deceive the people on the Convention question. They are misrepresenting the issues in the campaign. In order to catch the votes of white men, who thought it inexpedient to call a Convention at this time, some of them pretend they are in favor of adjourning the Convention. This is said to be an invention of John Pool, the same man who advised Holden, during the Kirk war, to have some of the best men in North Carolina murdered! Will honest men follow the lead of such a character as John Pool? Will they remain at home on the day of election and permit such men to ride into power again? Have they forgotten the swindling Radical Legislature of 1868? Have they forgotten the Holden Kirk war? Are they pleased with the Civil Rights party? Are they willing to put North Carolina in the hands of such a party again? No, never, NEVER."

The Paterson *Guardian* says that a neighboring farmer recklessly ventures the following challenge: "I will bet $42.25 that my hired man can take longer to get to the cornfield, get back to dinner quicker, eat more, do less, and bear down harder on a panel of fence than any other hired man within ten miles of the City Hall of Paterson."

WAKE COUNTY CANVASS.

The accounts of the progress of the campaign are most cheering. It is prosecuted on the side of the Democrats with marked ability and a zeal, which if shared in by other parts of the State, would ensure an overwhelming victory.

Maj. Gales' speeches at Apex and Cary are spoken of as master pieces of eloquence, of political learning and of consummate tact. The speaker has this early in the campaign established a fame as a stump orator scarcely second to any other in the State.

Mr. Battle is making most effective and able speeches, and Mr. Holland and Mr. Jones are making most pleasant impressions by their strong common sense, and their manly and forcible style of speech, and the whole Democratic ticket is just such a one as will make every white man in Wake feel proud of his party and sanguine of its success.

The big gun of the radicals, one who does all the shooting, is the United States District Attorney R. C. Badger. He is making a record which a man not skilled in rotating would shun. To say that his speeches are arrant demagoguism would hardly be strong enough to express the idea of the lowness of his appeals and the depth of his descent into the regions of baseness.

We wonder how the white men of Wake, the honest white man of Wake, takes the name that Mr. Badger gives him? Is "muffin" a title of honor for any white man? But Mr. Badger says he himself is a "muffin" and therefore the "poor white man," as he calls all those who never owned slaves, must feel honored by the association. From what lineage does he spring, or does he think the poor white people, the "muffins," as he calls them, will forget that all his people were slave owners, and formed a part of that aristocracy that that "had their tyrant heels on the necks of the poor people."

Mr. Badger goes on farther to ridicule the men whom North Carolina with common consent calls great and good,—Macon and Ruffin and Gaston and by implication, the illustrious George E. Badger whose fame and public career were contemporaneous and inseparable from those of his compeers.

Mr. Badger glorifies the Canby constitution and asks what have the bloated aristocrats of North Carolina ever done compared with what was done by those who framed that constitution? Now, does Mr. Badger forget that he was Secretary of the Democratic Executive Committee in 1868, and canvassed the county in opposition to that constitution?

And Mr. Badger promises when he gets into the Convention (?) to "go for the Great Graham" and would annihilate "Ruffin or Gaston or Graham," if they were in the Convention.

And Mr. Badger is profuse in his promises to the negro, lavish in his admiration of the race. His enthusiasm for the "color" carried him so far as make him say he was a "colored man" himself—a slip of the tongue, perhaps.

We think before the campaign is done with, Mr. Gales and his colleagues will have shown up demagoguism in its true colors and let the people understand that with all Mr. Badger's love for the "muffin" he is only using the muffin to help him to a better diet.

THE Convention is called to benefit North Carolinians. It is their duty to send their best men to represent them.

A KNOW NOTHING MOVEMENT.—The New York *Sun* is authority for the statement that a new know-nothing movement has been set on foot. It is called the American League, and was first organized in 1871. It is stated that it has 40,000 members in the State of New York, and will run a complete ticket for State officers in the election of November.—Its leading principle is that none but Americans born in this country and of American parents shall be eligible to office, and it proposes that the naturalization laws shall be amended accordingly. It also lays down the doctrine of absolute non-interference in religious subjects, though it holds the law of the land supreme above any church or sect. It is a secret society, made up of lodges, with passwords, signals and oaths.

SUICIDE OF A HORSE.—We take the following from the Petersburg *Star:* On Tuesday a horse belonging to Mr. James E. Collier suicided at Wyanoke on James river. He walked out the pier head of the wharf, and looking around as if choosing a spot, jumped into the river at a point where the water was deepest. Persons on the wharf seeing that he was drowning, got a rope around him and drew him into shallow water. As soon as he touched bottom he got loose again, and wading out some yards further in the stream, put his head beneath the surface and kept it teere until he drowned.

Persons curious respecting the cost of sculpture will find the following items interesting: Thomas Ball received $9,000 gold for his colossal equestrian statute of Washington in the Boston Public Garden. He took the commission at $12,000 before the war, and was paid when gold was very high.

LET THE PEOPLE READ.

State Expenses—Conservative vs. Radical.

Proper care and economy in handling the people's money is a great virtue in any political party. Extravagance, waste and peculation should crush it in the eyes of all good citizens. North Carolina is poor, and the party that practices economy in her administration seeks her greatest good. The following carefully prepared table shows who are the political friends of our Commonwealth:

Total four years Conservative Rule.	358 524 77	69 201 31	171 794 67	89 403 14	689 403 18
For the year ending September 1874.	81,466 60	14 196 14	10 506 13	3 000 00	109,168 80
For the year ending September 1873.	87,360 20	10 294 25? 30 255 22	97,850 22		
For the year ending September 1872.	81,279 25	14 488 95 24 203 83	93,176 83		
For year ending September 30th, 1871.	117,849 17	22 232 01 10 274 78	94,959 69	13,000 00	257 315 65
For two years Radical Rule	440 644 60	60 185 49 134 391 18	270,324 64	70,907 61	974 453 32
For the year ending September 30th, 1870.	161,151 70	34,703 45 52,884 82	110,880 32	74,732 70	434,342 95
For the year ending September 30th, 1869.	139,102 32 (Special Session, '68.	34,703 66 Public Printing.	76,696 64 Contingencies.	122,441 32 Other ordinary expenses.	1,861 91 Militia. Interest on Public Debt. Penitentiary. Bonds to Western Railroad. Literary Fund. Interest on Literary Fund. Public Buildings. Governor's Office. Treasurer's Office. Auditor's Office. Secretary of State's Office. Public Printing. Contingencies. Other ordinary expenses. Bonds to Western Railroad. Holden's War. Impeachment. Total.	390,710 38

It will be seen from the above estimates that the last *four* years when the administration of the State affairs has been to some extent controlled by conservatives, the public expenses have been less by $35,775.81 than that spent by the radicals in *two*, a difference sufficient in itself to defray the entire cost of a Constitutional Convention. By an amendment already made to the Constitution the General Assembly meets only once in two years, (an amendment passed by Conservative effort) so that the expense of the last Legislature, $109,168.80, should be divided by two to show a proper per annum expense.

Now let us estimate the probable cost of the Constitutional Convention:

120 delegates at $5.00 per diem,	$600.00
2 Door-keepers, $3.00 per diem	10.00
2 Clerks, at $5.00 per diem,	10.00
2 Pages, at $2.50 per diem,	5.00
Contingent,	10.00
Total,	$635.00
Estimate the duration of the Convention at 31 days and we have	19,050.00
Mileage,	6,000.00
Printing, &c.,	5,000.00
Total cost of Convention,	$30,050.00

The voting population is about 200,000, so that the cost of Convention will be *fifteen cents to the voter.* The property however pays the tax, and estimating the taxable value of the property of the State at $150,000,000 we find the cost of Convention but 20 *cents on the thousand dollars.*

In alluding to the four years of Conservative rule we "say to some extent" because they have not had the entire control of the State. If so much is saved when only the Legislative branch is conservative what would be the result if all were in their hands? Much of this expense also could be saved were it not force d on us by our ill advised Constitution.

It is hard to give figures a party bias. They are inflexible, but stand out a stern truth, a rigid fact, and if the people of North Carolina are wise they will heed the lesson they teach.

EDUCATIONAL.

RALEIGH HIGH SCHOOL,

An English, Classical, Mathematical, and Military School for Boys.

REV. JOSEPH M. ATKINSON, } Principals CHAS. H. SCOTT, }

The second annual session of this school will begin WEDNESDAY, September 1st, 1875. The Principals have procured for the school the commodious and attractive residence on Newbern Avenue, well-known in Raleigh as the "Cotton Place" more recently owned and handsomly refitted by Col. R. Kingsland.

Besides continuing their Day School they propose taking a limited number of boys of good character and conduct to board in their own family.

The training of the school, as heretofore, will be full, thorough and progressive, preparing its pupils for college or for business life.

Competent assistants will be provided in all departments, as may be required. The Principals trust that it is scarcely necessary for them to say that whilst the school will continue to be conducted on Christian principles, it will be entirely without denominational aim or bias.

For circulars and other information address either of the Principals, Raleigh, North Carolina. jy 3—1m

OFFICIAL REPORT.

The following is the sworn report of sales of Sewing Machines made by the leading Companies for 1874. An examination of the figures below will show that the "Singer" has largely increased its sales, while the other companies have fallen off.

The Singer has shown a large increase in sales every year as the statement below for the last four years will prove.

In 1871 the Singer sold 52,731 more machines than their highest competitor.

In 1872 the Singer sold 45,685 more machines than their highest competitor.

In 1873 the Singer sold 113,254 more machines than their highest competitor.

In 1874 the Singer sold 118,852 more machines than their highest competitor.

Making the total sum of 875,137 machines which was 390,505 more than their highest competitor. This fact proves the great superiority of the "SINGER" over any other machine. Now the question is, how long will this state of affairs last? How long will the other companies be able to keep offices open in the different cities and towns when they are selling so few machines?

Persons who think of buying or exchanging old ones (of whatever kind) are invited to consult their interest by getting a reliable machine from the old and reliable Singer Manufacturing Company.

THE DAILY NEWS.

THURSDAY.....JULY 24, 1875.

NORTH CAROLINA.

A grand masquerade ball will be given at the Atlantic Hotel, Beaufort, on the evening of the 28th inst.

The hotels and boarding houses at Beaufort have been crowded with visitors for several days past.

The crops along the line of the Western N. C. Rail-road are quite promising. In some sections, however, there has been a want of rain for the last few days.

Messrs. Wash Duke and John T. Morgan are now stumping as candidates for the Radical side of the State upon the question in Orange county.

The Lafayette Cornet Band, of Fayetteville, are at present visiting Wilmington, and are the guests of the Pythian Cornet Band of the latter city.

A correspondent from Stanley writes us that county is all right on the Convention question. Mr. Joseph Marshall has been nominated and will unquestionably be elected.

Hon. Wm. M. Robbins has gone to Wilkes to assist the Democratic candidates in the canvass of that county. We are pleased to learn that there is the strongest probability that Wilkes will go Democratic.

The Hillsboro *Recorder* says: "The telegraph office is again closed here, and the instruments removed. Mr. Cooley has been transferred to Thomasville and Mr. P. B. Ruffin has entered on his duties as agent."

The Charlotte negroes went down to Rock Hill, S. C., Sunday, on an excursion, but became engaged in a row with the negroes of that place. The result was several Charlotte negroes were wounded by pistol shots, but no serious damage was done.

Advices from all portions of the State are most cheering as regards the Convention question. The West is becoming aroused to the necessities of the hour and will come to the rescue of the depressed whites of the East.

Judge Watts is canvassing Iredell, Burke and other adjoining counties against Convention. He was met Tuesday at Morganton by Col. R. T. Armfield, of Statesville, and we can easily imagine the manner in which Watts was handled by Col. Armfield.

Gen. Wm. R. Cox and Hon Zeb. Vance are in the western portion of the State engaged in the Convention canvass. They will penetrate the great west as far as Cherokee, and we expect to hear good reports from them.

Says the Charlotte *Observer:* "Everybody who knows the Honorable Windy Billy Henderson, knows that his stock of knowledge is not near so great as his stock of gab. Not long ago, in conversation with a friend of ours, he expressed himself as being tired of public life, and said he believed that he would retire from it permanently. "However," said he, "this is just from choice, for I know of a consulship which I can get now." He was asked where it was, and replied the "he had forgotten the name of the place, but it was a city on the Amazon River, near the Dead Sea and close to Berlin."

The denizens of Wilmington enjoyed the thermometer at 102 in the shade on Sunday. Says the *Journal:* "Handkerchiefs were of but little use. We saw several persons who substituted therefore the large thick German towels, and then had to change once in a while. The oldest inhabitant has never seen such a heated term. But what makes us pant for breath, has its general benefits. The farmers are rejoicing over the promise of full crops, the heat is forcing vegetation forward in a remarkable degree, and the weather meets their full approval."

The Wilmington *Star* thus states the case of a young man of that city who is evidently after a $200,000 girl: "A gentleman of this city, having obtained from his employer leave of absence for a month, left about ten days ago for a fashionable watering-place to enjoy his furlough. A day or two since his employer concluded he might have to order him to return before his furlough expired, and telegraphed him to that effect. In response, our gay and festive pleasure-hunter telegraphed as follows: "Don't call on me; two hundred thousand dollars at stake." The coolness, or rather "cheek," displayed in the telegram has so amazed and demoralized the employer that it is not probable he will sufficiently recover his equanimity to order the employee back before summer has expired. A ball fired from a 12 pound Parrott gun, at 50 yards range, might strike that fellow on the cheek, but it wouldn't even abrade the epidermis"

THE CUMBERLAND'S TREASURE.—Referring to the recent recovery of the safe of the Cumberland, the Washington *Chronicle* of the 19th remarks: Some time since a glowing statement appeared in all the newspapers to the effect that the submarine divers had recovered over sixty thousand dollars in gold from the safe in the wreck of the United States frigate Cumberland, which was run into and sunk by the ram Merrimac in the early part of the war. We have reliable information that the amount recovered will not net more than $12,000, and will probably be as low as $10,000. The accounts of the paymaster at the Navy Department will verify this statement very closely, for they show that at the outsole the pay-master could have only eighteen thousand dollars in his possession. It is supposed that at least six, probably eight thousand dollars of this amount was disbursed before the sinking. In addition to the gold coin, there is copper and other material approximately worth $10,000, but it is a mooted point whether the divers will be permitted to enjoy the sole benefits of the sale of all the stuff of the wreck recovered by them.—*Norfolk Virginian.*

A Washington correspondent writes: "Postmaster General Jewell strips off his coat and vest during these hot days in his office. The visitors find this white-headed, florid, business-looking man prespiring in a well-diamonded shirt and a pair of light trousers. Since the hot weather, it has been discovered that Jewell is not proud. He does not wear shirts that open behind; he is very fond of his cigar, but as he has issued an order to his subordinates that there shall be no smoking during office hours, he closely adheres to it himself. But the minute 3 o'clock approaches, Mr. Jewell catches up a huge Havana, and the moment the clock strikes, he lights and blows a blue cloud of intense enjoyment as a reward for his six hours of self-denial.

ADDRESS OF THE EXECUTIVE DEMOCRATIC CENTRAL COMMITTEE TO THE PEOPLE OF NORTH CAROLINA.

ROOMS OF THE DEMOCRATIC CONSERVATIVE CENT'L EX. COM.,
RALEIGH, June 1st, '75.

To the People of North Carolina:

The General Assembly at its recent session called a Convention of the people to meet at Raleigh on the 6th day of September next, for the purpose of suggesting such alterations in our organic law as may be deemed wise and expedient.

NECESSITY FOR CHANGE.

The necessity for changing many of the provisions of the existing Constitution is generally admitted, and is too apparent to require extended argument. It is true that some of our prominent men at one time opposed the call for a convention; but their action was based on prudential consideration, and not on an indisposition to have the Constitution thoroughly revised. They feared that our purpose in seeking to reform our Fundamental Law, might be misconstrued by the violent and ill-informed men then controlling Congress, and the prosperity of our people checked, and the peace of the State jeopardized by some harsh and unconstitutional action on the part of the United States authorities. That fear no longer exists. We now have every assurance that the Constitution of the United States will be observed by the officers of the Government, and feel a satisfaction in announcing to you that the time has at last arrived when the officials at Washington City concede that the people of North Carolina have the same right to manage their local concerns which the citizens of other States enjoy. We can proceed without apprehension to perfect our Constitution and remodel it in the interests of our people.

THE CONSTITUTION, THE CREATURE OF MILITARY LAW.

This Constitution, the creature of Military dictation, was born in the throes of a Military reconstruction. Its authors were mainly Sciolists and adventurers, who had lived among us without preferment, or possessed of qualifications entitling them to it; others were our recent slaves, who had known no law save the will of their masters, and others still were carpet-baggers, both black and white—alien in feeling and Radical in education—who sought positions here that were denied them where known—to despoil and humiliate us. And when their work was submitted to the people at the polls, thousands of our best citizens were deprived of the right of voting upon it, and over eighty thousand ignorant negroes were given the ballot to secure its adoption. It is no exaggeration to say that not one person in ten who voted for it could read the instrument, and not one in fifty had read it or was even moderately familiar with its provisions, and many gave it their support believing it would be merely temporary, and to escape further agitation and revolution. It is natural therefore that a Constitution thus formed and adopted should be found unsuited to our condition, and that we should embrace the earliest opportunity consistent with reason and prudence to secure such changes as time and experience have shown to be necessary. Our organic law should be expressed in language clear, simple and perspicuous, so that nothing may be left to inference or construction; our rights, so precisely defined as to be comprehended by all men of ordinary intelligence; and each department of the government should be so restricted, that while left free to discharge its appropriate duties, it cannot by unwarranted encroachments embarrass the proper action of the others.

THE CONSTITUTION UNSUITED TO OUR CONDITION.

That the Constitution contains some good provisions no one denies; it would be singular if it did not, but its abominable characteristics were so manifest that not a single Conservative member of the Convention that passed it could be induced to affix his signature to it, as a fit instrument to be submitted to the people. Indeed its provisions are so loosely worded and so badly arranged as to constitute just a medley of incongruities that defies the successful construction of the courts; in fact, to reconcile the difficulties arising from its practical workings, the court has in some instances been driven to supply omissions, and to introduce a new principle, hitherto unknown in the judicial history of our State, distinguished as "judicial legislation," an innovation anti-republican in character and invasive of the rights and duties of a separate department. Its revisions are so obscure that within the brief space of its existence many more decisions on constitutional questions have been demanded than in the entire previous history of the State—and of late we have witnessed the extraordinary spectacle of two sets of judges in both the second and eighth Judicial Districts, contending for the same position, one of which ended in going to hold by an appointment from the Governor for a period of ten years, an office that the Constitution seems to say is to be filled by the people at the polls, and whose term is expressed to be only eight years.

In many counties, there is a practical denial of justice, the courts are inadequate to the public demands, and thus they are driven to resort to special terms, which are expensive and unsatisfactory, and persons accused of criminal offenses are often confined for months without trial. We need a speedier justice and a less expensive judiciary system. We should abolish every useless office, which is now filled by a mere consumer; for only by a rigid and prudent economy in our public as well as private affairs, can we hope to re-store the State to prosperity. It is believed that the laws will be more impartially administered by a return to the old practice of a rotation of the Judges.

AMENDMENTS TO THE CRIMINAL LAW NECESSARY.

It is also hoped that a greater incentive to honesty and a purification of the ballot box might result from depriving those who are convicted of infamous crimes of the elective franchise.

The Penitentiary which already contains more than six hundred able-bodied men, also demands careful and practical attention, to remove in some measure that burden from our shoulders. Most of our private legislation should be excluded from the General Assembly. However, our limited space does not permit us to catalogue the numerous defects and imperfections of the present constitution to enumerate the remedies to be offered.

There should be some general ordinance adopted in relation to private enactments, thereby reducing the expenses of the legislature, and in order to prevent hasty and inconsiderate legislation that no new matter be brought forward within —— days of its adjourning.

CAREFUL SELECTION OF DELEGATES.

As to the specific changes that ought to be made, these are to be considered by the citizens of the various counties, who should be careful to select as delegates those who will properly reflect their wishes. Men of enlarged and practical statesmanship, spotless integrity, representatives of all classes of society, and whose positions among them will entitle them their labors to confidence and support—and in their hands we certainly can more safely confide their rights than in the Convention of 1868.

METHODS OF CHANGE.

Of the two methods prescribed for changing the Constitution, that by legislative enactment is expensive, uncertain and dangerous; the several amendments recently submitted to and ratified by the people encountered the greatest difficulties in their passage, and even after the will of the people was declared in their favor by over 14,000 majority, serious apprehensions were entertained as to whether they were properly adopted; again, legislators when possessed of qualifications for such duties, are encumbered with numerous matters, and cannot bring that attention to each provision presented for consideration, without meeting such criticisms as may imperil their labors.

The Convention method is speedy and economical, the body is composed only of the same number of members as comprise the House of Representatives, and their minds are directed alone to constitutional reforms and their work may be completed and ratified, if necessary, in six months. As to expenses that may be incurred, it is believed they will be more than defrayed in a short time by the reforms that will be inaugurated.

The restrictions imposed by the Legislature, fully and amply secure the Homestead, Mechanics Lien, Rights of married Women, and Personal Liberty, and should quiet the fears of the most timid, for they are recognized as of binding efficacy and are calmly enjoyed by the friends of Constitutional Reform. Indeed they were incorporated in the bill mainly to remove factious clamor, and anticipate scrupulous agitation. They are not the property of a mere party, but had their origin in the necessities of civilized society and were found among the statutes of various States previous to the war.

QUALIFICATIONS OF DELEGATES.

It is useless, however, to seek to oppose the mere cavilling; the keen optics of some persons defy all law. The mere fact that the honor of the best men in the State is pledged to their preservation, should satisfy every reasonable voter. This Convention is called in pursuance of law, and each delegate before "he shall be permitted to sit, to be entitled to a seat in said Convention or act as a delegate thereto," shall swear to observe those "restrictions" (see acts 1874-5), could a man comply and yet refuse to take this oath, only those who obey the law are members of the body, nor are we without precedents; similar oath was required of the members of the "reading Convention" of 1835, the same question was raised, and after debate all the members took the oath and observed the restrictions, and that in a time of high party excitement. In that disagreeable but distinguished Judge Gaston used the following language: "The State Legislature had indeed no authority to impose an oath upon the members of the Convention, but the people had ratified the act of the Legislature by choosing delegates under it. If we transcend the limits or refuse obedience to the conditions therein prescribed we are not the Convention called by the people, but a self constituted body;" those views were concurred in by Macon, Edwards, Morehead, and others. We will dismiss the subject, however, by calling attention to the able work of Judge Jameson on "constitutional Conventions," wherein, by argument and the cases cited by him in relation to this matter, he demonstrated that Conventions are bound to obey the restrictions imposed by the Legislature in the Act calling the Convention.

AID FROM REPUBLICANS.

In our last election it was gratifying to see Republicans who had hitherto submitted to the control of unscrupulous leaders under a mistaken belief that they were promoting the general welfare, seeing their corruption through the "Credit Mobilier revelations," "Sanborn Contracts," and other frauds and defalcations, and their vindictive and relentless policy, whereby they sought to degrade the superior race by the "Civil Rights Bill," overcome their party prejudice and give us their cordial support. To them we extend an invitation to remain and continue the work so auspiciously begun. To those who opposed us under the delusion of their leaders, who assured them this bill would never pass Congress and if it did would be vetoed by the President, though it now has his signature; and who have witnessed the earnestness with which the dangerous "Force Bill" was urged upon Congress, we say that we cannot promise that there is neither safety nor honor to a North Carolinian. The battle for civil liberty is not yet over. "Civil Rights" is still a part of the secret caucus programme for this State; though driven from the English Congress, it will be renewed in the Southern States. We therefore invite their co-operation. The Convention owes its final success to the support of some of their ablest representatives in the General Assembly and they are doubtless aware that the wise provisions introduced into the Convention of 1868, by their ablest native representatives were scouted and defeated by that unwise element that brought ruin upon their party and confusion to our State.

NECESSITY OF ORGANIZATION.

The friends of Convention should at once perfect their organization and bring out their best men in every county in the State. The leaders of the Republican party know that by their reckless violations of the constitution and efforts to centralize power in the hands of the Federal Government, they have justly forfeited the confidence and support of the people; they therefore trust not to their own strength but to our apathy, and will endeavor to secure our defeat by divisions and false leaders. We therefore respectfully invite their attention to the following resolution adopted and successfully followed in our last campaign:

Resolved, That we earnestly recommend to the members of the Democratic Conservative party to discourage independent candidates and all other disorganizers, that all support be promptly withdrawn from every aspirant for office who will not oppose the regular nominees of our Conventions. Let your primary county Conventions be duly advertised and see that the people have a full opportunity of attending and expressing their wishes. The contest is important not only in its immediate effects but in subsequent results. The Republican party, under the leadership of such braggarts as still remaining among us, will advocate the election of delegates who will agree to meet and sojourn without holding a Convention, and this in violation of the wishes of the people, expressed through a two-thirds majority of the chosen Representatives, and after a considerable part of the expenses for milage and per diem is incurred. We believe, however, the promise is but a delusion and snare, for should they succeed in having a majority in the body, it will be an easy matter for them to evade their promise by the refusal of a few to concur; as they do not acknowledge the "restrictions" as binding, they will resort to their revolutionary measures to sustain their desperate fortunes, and in the end will fail to submit their work to the people for ratification or rejection.

Let us, therefore, present a united front, and with a general advance along our lines Radicalism will not only be routed but overwhelmed, and a victory for Civil Liberty assured for 1876.

THE MOUNTAIN HOTEL,

A FIRST CLASS HOUSE.

Its elevated and cool location, in full view of beautiful MOUNTAIN SCENERY; removed from the heat, noise and bustle of the Public square, makes it the most desirable house for the invalid, and equally so for the seekers of pleasure.

Its character as a FIRST CLASS HOUSE, excelling every other in Morganton, is a fact too well known to require further remark; but that in consequence of the passage of THE ABOMINABLE CIVIL RIGHTS BILL by Congress, it is no longer a PUBLIC INN, TAVERN or HOTEL for the entertainment of the public generally; but is strictly open for the accommodation of such if my friends as choose to call upon me upon such terms per day, week or month as we may agree upon, and to only such persons as I shall deem proper: namely on Happoldt's SELECT BOARDING HOUSE.

COTTON GINS.

TRIALS OF GINS AT THE WILMINGTON FAIR, Dec. 13th, 1873, between a 40 Circular Needle Gin and a 40 Saw Taylor Gin, each Gin having 100 bbs. seed cotton:

NEEDLE GIN ginned 100 lbs. in 6 minutes,
TAYLOR "saw Gin " 100 lbs. in 9 minutes,
NEEDLE GIN made 36 lbs. Lint,
TAYLOR Saw Gin " 33½ lbs. Lint,

Steam pressure to run Needle Gin was ½ less.

PLEASE EXAMINE THE PRACTICAL RESULT.

The merchantable bale of cotton being an average of four hundred and seventy pounds, for convenience we submit a test on thirteen hundred pounds cotton in seed, as being a near approximate to the merchantable bale in lint.

TEST OF NEEDLE GIN.

Thirteen hundred pounds of seed cotton yielding in proportion to the above test, produces four hundred and sixty-eight pounds of lint and calculating the price per pound at fourteen cents, (as an average rate obtained for the seasons crop), the net value of the production would be $65 52. The time consumed in ginning would be seventy-eight minutes to the bale.

TEST OF TAYLOR SAW GIN.

Thirteen hundred pounds of seed cotton yielding in above proportion, would produce four hundred and thirty-two pounds lint (or some thirty-six lbs. lint per bale less than the Needle Gin), which at fourteen cents would net $60 48—or a loss of $5 04 per bale as compared with the Needle Gin. This would require the ginning of only fifty-three bales TO PAY FOR YOUR GIN, as the amount saved would buy you a Forty Circle Gin.

A Centennial Legion to be Organized from the "Old Thirteen" States.

NEW YORK, July 21.—At a meeting of the past and active members of the Boston Light Infantry Association Monday a proposition was read from Maj. Gilchrist, of Washington Light Infantry, of Charleston, S. C., with reference to the organization of a "Centennial legion" from leading veteran organizations of the "Old Thirteen" States, to take part in the National Centennial celebration at Philadelphia next year, the legion to consist of one battery of Light Artillery, twelve companies of Cavalry and ten companies of Infantry, one company each from New Hampshire, Massachusetts, Connecticut & Rhode Island, with a field officer in command, selected by those companies. One each from New York, New Jersey and Pennsylvania, with field officer selected by these companies. One each from Maryland, Virginia, North Carolina, South Carolina and Georgia, with a field officer selected as aforesaid. Each company to be limited to seventy-five men in all. All the companies to rendezvous in Philadelphia on the 2nd of July at noon.

The proposition also states that the Centennial of the Battle of Fort Moultrie be celebrated in Charleston on the 28th of June 1876. It will be desirable for as many of these commanders as possible, or representation thereof, to rendezvous in Charleston to assist in the celebration, and proceed thence to Philadelphia by rail and steamer as may be best practicable. The plan was well received by the Boston organization, and several members made brief speeches urging the acceptance of the invitation to attend the Fort Moultrie celebration. Although no immediate action was taken, the general opinion of members was in favor of participating in formation of proposed Legion.

The Cotton Mill Operatives at Oldham, &c.

LONDON, July 21.—The cotton mill operatives at Oldham held a crowded meeting and resolved to refuse the masters terms, fixing the wages. Oldham alone contains 40,000 operatives. The mills in the surrounding district are unsettled and a general rupture of the Lancashire cotton trade may be looked for.

The delegates attending Presbyterian Conference number one hundred. The following American representatives attended yesterday evening: Rev. Mr. Morris, of Cincinnati, Dr. McCosh, of Princeton, Stuart Robinson, of Louisville, Sloan, of Allegheny City, and Schaffold Rogers, of New York.

The Erie Railway Company and London Bondholders.

NEW YORK, July 21.—The Erie Railway has employed Dorman B. Eaton to proceed to London to obtain two and a half million dollars, remaining from bonds negotiated there and which are held by the London Banking Association and James McHenry, on the ground that the claims may be made against them by Europeans, which claims the Erie company do not recognize.

Miscellaneous Items.

President Grant paid a *flying visit* to Washington yesterday to attend to routine business. He had interviews with the heads of departments.

An official dispatch in the Paris *Temps* reports that Carlist General Dorregary has been wounded and has taken refuge in France near Conterets.

MIDNIGHT DISPATCHES.

Bankers Convention.

SARATOGA, July 21.—The committee on resolutions reported: first, favoring immediate resumption and calling upon every citizen to hasten the day when every promise of the Government to pay a dollar should be redeemed in coin. Second, calling for the repeal of the war tax on bankers; third, urging Congress to issue coupon bonds in exchange for registered bonds of the same. Fourth, demanding the abolishment of two cent stamp on checks and vouchers. Fifth, favoring a permanent organization of national bankers.

Mr. Buell, of New York city, spoke in favor of the resolution for immediate resumption. Mr. Thos. McGrew of Springfield, Ill., offered the following: Resolved, that it is the opinion of this Convention that an act to provide for resumption of specie payment approved January 14th 1875, ought to be amended, so as to provide for the gradual contraction of all legal tender in circulation, and time of resumption be extended to the 1st of January 1885, to afford time for the business of the country to adjust itself to change without sudden fall of prices. Mr. McGrew spoke at some length in favor of his resolutions. The committee resolutions were adopted.

Great London Merchants Arrested for obtaining Money on false Pretenses.

LONDON, July 31.—Alexander and William Collie, of the firm recently suspended, were arraigned at Guildhall on a charge of obtaining large sums of money from the London and Westminister Bank on false pretenses. The total amount alleged in the information to have been obtained is one million, but is reported to be actually much larger. Seregant Balantine was counsel for the defence. The prisoners were remanded for a week. The bail is fixed at forty thousand for each, which is not yet found.

The Cotton and Corn Crops Damaged by Drouth.

AUGUSTA, July 21.—Up to the 4th of July the cotton prospects were excellent in this section, but the intensely hot and scorching weather since have caused the cotton to droop and in some instances to die. The planters are alarmed in certain counties and have held prayer meetings for rain. Unless we have rain in a short time the cotton and corn crops will be seriously injured.

Bloody Feud in Florida.

MONTGOMERY, July 21.—It is reported that a terrible fight occurred in Perdido, Escambia county, Florida, between 2 families, Hartlett and Byers, in which six men consisting of the father and two sons on each side were engaged. Five were killed outright, while the sixth and last has a load of buckshot in his side which must cause death. Both families said to be of Indian descent. An old family feud.

A Ravisher Got His Just Reward.

MEMPHIS, July 21.—In May last a young lady residing at Iuka, Miss., was brutally outraged and beaten at the depot while waiting for an escort at an early hour by a negro hack driver, named Lewis Thompson. During the struggle she bit him on the cheek which led to his capture last Monday.

He was arraigned for trial yesterday and sentenced to the penitentiary for life. The greatest excitement ensued upon announcement of the verdict, as the lady was poor and unprotected but highly esteemed by all the citizens. The excitement culminated last night in a party of disguised men going to the jail, taking Thompson down near the Depot and hanging him.

Washington Items.

Much routine business in the Cabinet.

The withdrawal of the request for Judge Fisher's resignation was to give him time for explanation.

The President will interfere no further.

The matter rests with Pierrepont.

The personal affairs of the Department of the Interior were not discussed.

The President went North to-night.

The Cabinet was full except Secretary of War.

The Liverpool *Albion* says the rapid decline of cotton is forcing the weaker holders to clear off their stocks and creating a gloomy feeling.

An unimportant cotton failure in Liverpool Tuesday. An uneasy and depressed feeling continues, but no further trouble is reported. The market continues dull and irregular.

It is reported that Prussia and Russia intend to extend furloughs on a large scale next year. One of the Vienna papers urges that Austria follow and prove the alliance between the three Emperors worth something.

The stock of the Anglo American Telagraph Company has advanced two pounds ten shillings. The rise is attributed to the reported failure to repair the direct cable, the stock of which has declined 20 per cent. since the 8th inst.

PRAYER AND MURDER.—The last murder in Fort Wayne, Ind., was a little out of the way of the ordinary achievements in the art. Joseph Wall, a christian and praying negro, occupied the lower half of a building only a thin partition wall separating him from Mr. Cronk, a German citizen. Wall was acustomed to pray at the top of his voice and continued long at his devotions. Cronk did not believe in prayer, and especialy objected to the lenghty and detonating supplications of the pious negro. The other night he was kept from his rest by Wall's groans, and threatened to put a stop to it. Wall heard him, and, rising from his knees, rushed upon Cronk with a loaded revolver, A struggle ensued, the revolver fell to the floor; Wall drew a long knife, Cronk was carved open, struck on the head with a poker, and his spirit took its departure. The pious negro is in jail resting in the firm belief that he will get a step higher in glory for slaughtering an enemy of the Lord. The case is one eminently deserving the investigation of theologians.

So much has been said and written on the subject of long sermons, that on a recent Sunday morning, in a Manchester church, the clergyman, before commencing to preach, called to his side two of the boys who carry the incense, and desired them to ring a bell when he had spoken for twenty minutes. During the progress of his discourse, he made inquiry of the boys as to the time remaining to him and when at length the bell rang he immediately closed up in the usual fashion. The congregation tittered visibly at the novel proceeding.

THE OLD NORTH STATE

Vegetable Stomach Bitters,

PREPARED BY

C. G. LANIER,

Hickory, N. C.

In offering to the public for their use and relief the

Old North State Vegetable Stomach Bitters,

I feel no hesitancy in saying this is the purest and best article ever offered them.

I warrant each bottle to contain NO chemical whatever—nothing but the best vegetable preparation, (See recommendation of physicians,) and the purest Domestic Whiskey.

In preparing this excellent tonic I have spared no pains or cost to make it just what I recommend it to be—

The Very Best Tonic ever offered to Invalids and Others,

and without the usual cry of "Encourage Home Enterprise," I would say to all the suffering—Throw away the filthy and worthless drugs sold you heretofore by would-be "all cures," and try one bottle of

The Old North State Bitters,

and if then you will say you have not been benefitted by its use, I will return to all such their money.

OLD NORTH STATE BITTERS

cures all the diseases of the Blood, Gravel, Gout, Incipient Dropsy, Rheumatism, Colic, Pain of the Stomach and Bowels, and is peculiarly efficacious in all ordinary cases of Obstruction in the Kidneys, Bladder and Urinary Organs.

Preserve the Leather!

Warranted to Excell All Others or Money Refunded!

The only blacking that will polish on oiled surface. It is guaranteed to preserve the leather and make it pliant, requiring less quantity and time to produce a perfect gloss than any other, the brush to be applied immediately after putting on the blacking. A perfect gloss from this will not soil even white clothes. We guarantee it as represented, and ask for patronage strictly on its merits.

In testing our blacking use a brush that has no other on it. Prices as low as other Blacking. Liberal arrangements made with merchants and wholesale dealers.

Below we give testimonials of those who have tested our Blacking thoroughly and speak for themselves. These testimonials are from gentlemen well known to the public.

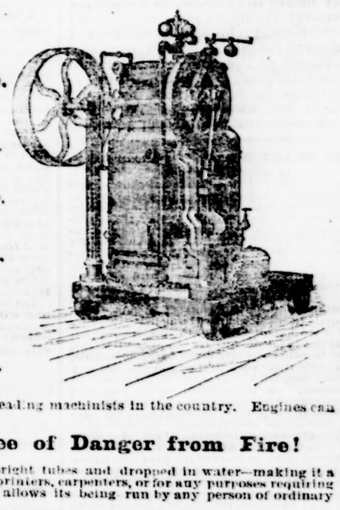
PATENTED FEBRUARY 9TH, 1874,

is offered to the public by the agents,

Julius Lewis & Co.,

RALEIGH, N. C.



Please write them for circulars, terms, &c.

This Engine is endorsed by all the leading machinists in the country. Engines can be seen at our store.

It is Perfectly Free of Danger from Fire!

Sparks being drawn down through upright tubes and dropped in water—making it a desirable machine for agriculturists, printers, carpenters, or for any purposes requiring power of its capacity, its simplicity allows its being run by any person of ordinary ability.

These Engines and Boilers have been thoroughly examined and inspected by the best mechanics, engineers and experts, all of whom pronounce it to be the best Portable Engine ever presented to the public.

Their small consumption of fuel, (being less than a quarter of a cord of wood daily, for eight horse power) and we call especial attention to the fact that these engines and boilers are considered so safe by Insurance Companies, that they do not increase their rates of insurance upon their introduction into stores, gin houses, and other buildings, making them desirable machines for ginning cotton, running mill stones, elevating, heating, &c.; and they cannot fail to come into general use.

The materials used in the construction of these machines are in every respect first-class. No cast iron shafts or connections. Piston and valve rods, wrist pins, &c., are of best cast steel. Steam and water gauges, try-cocks, oil-cups, &c., with governor, all as complete and perfectly made as possible. jy 4

J. H. ZEILIN & CO.,
Macon, Ga., and Philadelphia, Pa.

THE SYMPTOMS of Liver Complaint are: Pain in the side, sometimes the pain is in the shoulder, and is sometimes mistaken for Rheumatism. The stomach is affected with loss of appetite, sickness, bowels in a costive, sometimes alternating with loose. The head is troubled with pain, accompanied with a painful sensation of having left undone something which ought to have been done. Often dizziness, with a yellow appearance of the eyes, and sallow skin, and low spirits. Sometimes many of these symptoms attend the disease, and at other times very few of them; but the Liver is generally the organ most involved.

Nearly all diseases originate in torpidity of the liver. The bowels is always anxiously sought, the Liver is regulated in its action, and is almost invariably secured. Indigestion, Constipation, Jaundice, Pain in the Side, Cough, Chills, Dizziness, Sour Stomach, bad taste in the mouth, Bilious Attacks, Palpitation of the Heart, Depression of spirits, and all the horrible symptoms, for which SIMMONS LIVER REGULATOR is the best remedy ever been discovered.
